Gas Safety Controls
Product Catalogue

GAS SAFETY IN EVERY ENVIRONMENT.

The UK's leading designer, manufacturer and supplier of the latest range of gas safety products.

Ranges include; gas ventilation and interlock systems for use in commercial kitchens, gas pressure proving systems and gas detection systems for school laboratories and boiler houses.
Designed and manufactured in the UK.

38 Years Industry Experience

Easy to Install Solutions

3 Year Product Warranty

24/7 Tech Back Up

Fully Trained Sales Engineers

Express Delivery Available

Product key features

The benefits of each of our products are illustrated in an icon format throughout this brochure, aiding you to select the product and design features most suited for your requirements.

The icons are located at the top of each product page with accompanying detail for ease of reference and comparison of the solutions we have available.

If you have any questions about any products and their features please contact info@snsnorthern.com.

Boiler Room

S&S Northern have a solution for every commercial Plant room application. We offer a wide range of control panels, gas detectors, heat sensors and gas solenoid valves. Whether your project is a small residential application or a large scale plant room, we have the knowledge and experience to offer the perfect products. Remote monitoring, Modbus and data logging are available on our GDPX Range.

Merlin GDPX+

Remote monitoring LAN connection	Integral Emergency Stop	Meets all latest standards	In built fire alarm bypass mode	Gas proving feature*	Connections for BMS and Modbus outputs

GAS PROVING & DETECTION WITH REMOTE MONITORING (16 ZONE)

The Merlin GDPX+ is a multi-zone gas detection panel which can be used in many applications such as boiler house/ Plant rooms, factories, car parks and high rise. It can be used with up to 16 Merlin gas detectors for monitoring and detecting gas, including carbon monoxide, LPG, Natural Gas, Oxygen and Hydrogen.

The GDPX+ can be remotely monitored from www.snsnorthern.com so you can monitor the status of your sites from your computer or smartphone.

Additional features

• Internet enabled (LAN)

• Remote monitoring LAN connection using snsnorthern.com portal

• Can be used with up to 16 gas detectors

• Connections for heat detectors/thermal links

• Two spare Input Connections (for additional detectors, fans, equipment)

• Connection for sounder/strobe

*Gas pressure transmitter included

OFTEN USED WITH

Page 48

The Merlin GDP2X is a 2 zone gas detection panel it can be used with up to 8 Merlin gas detectors (model X) for monitoring and detecting gas including carbon monoxide, LPG, Natural Gas, Oxygen and Hydrogen.

Additional features

• Gas valve output

• Can be used with up to 8 gas detectors

• Connection for sounder/strobe

GAS DETECTION (2 ZONE)

Merlin 1000BH

Integral Emergency Stop

Meets all latest standards

Gas proving feature*

Connections for heat detectors/ thermal links

GAS PROVING & DETECTION (2 ZONE)

The Merlin 1000BH is a gas pressure proving and gas detection panel for use in plant rooms and boiler houses. This panel is to be used to carry out a gas proving test on the pipe work in order to highlight if there is a gas appliance open or a gas leak. The Merlin 1000BH is designed to give the user full control over the incoming gas supply with the lockable keyswitch operation.

Additional features

• Gas valve output

• Can be used with two gas detectors

• Connections for BMS

*Gas pressure transmitter included

OFTEN USED WITH

Gas Solenoid valve

Fusible Link
Page 49

Emergency Stop
Page 48

The Merlin GDP2 is a two zone gas detection panel which can be used in many applications such as factories, car parks, shopping centres and most commonly - boiler houses.

Additional features

• Gas valve output

• Can be used with up to 2 gas detectors

• Connections for BMS

• Connection for sounder/strobe

GAS DETECTION (2 ZONE)

Merlin 500S

Clear digital display for system indications

Meets all latest standards

Connections for heat detectors/ thermal links

UTILITY ISOLATION PANEL

The Merlin panel is designed to provide the user with an effective means of isolating the utility, via a key switch or in the event of an emergency, by operation of the emergency shut off button. The 500S has a fascia mounted emergency shut off button fitted as standard and the fascia mounted LEDs give simple and concise information to the operator. The panel is fully compatible with S&S Northern remote emergency stop terminals allowing a large number of emergency terminals to be connected in series and wired back to the panel.

Additional features

• Easy installation

• Covered by S&S Northern ltd 3 year warranty

OFTEN USED WITH

Gas Solenoid valve

Page 48

Detectors

S&S Northern manufacture a wide range of gas detectors for monitoring air quality, toxic gases, explosive and flammable gases. They are designed to be easy to install and maintained. Each target gas has unique characteristics and therefore the detector needs to be installed to suit the target gas. Please contact us or have a look on our website for mounting height information and advice on installation.

✔ Dual power 230V AC or 12-24V AC/DC
✔ Modern design with a slim and compact enclosure

1. CO2 Levels
Displays current cO2 gas levels in parts per million (ppm).

2. Average CO2 Levels
Average cO2 readings over an 8 hour period when above 600ppm.

3. Gas in use
Indication when the gas is being used.

4. Traffic light indicator
Display changes colour dependent on the cO2 levels and temperature. Green-Safe, Yellow-Attention, Red-Danger.

5. Temperature reading
Displays temperature levels over 30 minute periods.

6. Touch button
Used to activate 'Boost' or 'Mute'.

7. Boost on
Analogue outputs will run at optimum voltage (10V) to run a fan.

8. Mute
Sounder alarm mute indication.

CO2-X Monitor

Clear digital display

Designed specifically for BB101

Automatic alarm

12V DC, 24VDC or 230V AC powered.

Fan controller enabled relay output

CARBON DIOXIDE MONITOR

The CO2-X is a dual powered carbon dioxide and temperature monitor, which has the ability to show average readings over an 8 hour period.

Additional features
• Can automatically change alarm settings based on gas valve activation

• CO2 and temperature levels measured and displayed clearly.

• 2 x 0-10V Signal output.

• Displays average readings of CO2 concentration over an 8 hour period.

• End of life and fault notifications.

• Pre alarm and alarm output.

• Variable CO2 and temperature output

The budget friendly Merlin CO2-C1 detector is a mains powered monitor to give the end user simplified analysis of the carbon dioxide levels in the surrounding area. The Merlin CO2-C1 has a traffic light colour system (red, amber, green) with high, medium, low indications.

Additional features

• Traffic light display to clearly indicate low, medium and high levels of CO2.

• Low voltage switch when levels of carbon dioxide increase

• Mains powered

✔ Modern design with a slim and compact enclosure
✔ No calibration required - pre-calibrated in the factory
✔ Power supply 12-24V AC/DC
✔ Various outputs to work with control panels
✔ Connections available for Modbus outputs

1. End of life indicator
To alert the user that the detector has reached its expected operational lifecycle.

2. Traffic light indicator
To summarise gas levels: display changes colour dependent on live gas levels. Green-Safe, Yellow-Attention, Red-Danger.

3. Multiple detector chains
Individually identify each detector and the monitoring zone the detector is located.
4. Gas levels
Displays current gas levels in parts per million (ppm) or low explosion level (LEL) dependent on the gas detector type. Levels visible at all time.

5. Service & Maintenance
A service screen will intermittently flash every 30 seconds after one year of service.

Mini Merlin CH4CO TFT

Clear digital display

Gas Level Indicator for both NG and CO

Low voltage input

COMBINED NATURAL GAS & CARBON MONOXIDE DETECTOR

The Mini Merlin CH4CO TFT for domestic applications.

The Mini Merlin CH4CO TFT is a dual gas sensor carefully designed and tested to monitor levels of natural gas- Methane (NG) and Carbon Monoxide (CO) in the air. If there is a dangerous build-up of gas or unsafe levels of carbon monoxide at the sensor, this device can shut off the gas supply via a gas safety valve.

Additional features

• Dual sensor built into one controller

• End of life notification

• Shuts off gas when in high alarm

• Can be used to shut off boilers via appliance limit circuits

• Low voltage inputs for remote emergency stops and fire alarms

• BMS system integration

• LPG & CO detector available

Bump Kits

We offer a full range of bottled test gases and testing equipment. The Bump kits are is used to check and maintain gas detectors.

• Carbon Monoxide

• Methane

• LPG

• Nitrogen

Others available on request.

FAB-1 Fire Alarm bypass

		OFTEN USED WITH
Merlin GDP-2 **Page 33**	Merlin 1000BH **Page 32**	

The Merlin FAB1 can be integrated with any of the Merlin products to give the operator the ability to temporarily bypass the S&S controller. With prior notice to a fire alarm test, the operator can turn the key to the on position giving an un-interrupted gas supply for between 10 and 45 minutes.

During this time the system controlling the gas will ignore shut-off signals from the buildings fire alarm system and allow factors such as heating systems to remain operational. The bypass time can be adjusted using the blue switches inside the panel. During the bypass time gas can still be shut off by pressing the emergency gas shut off button on the fascia.

Emergency Stop

			OFTEN USED WITH
Merlin 2000S **Page 15**	Merlin 3000S **Page 10**	Merlin 1000VW+ **Page 22**	

The Emergency Stop button is used to isolate the gas supply into an area in the event of emergency.

The button is fitted with a Perspex screen which should be pressed to activate, and then can be reset using a key (supplied with every emergency knock-off button) . This button can be linked with any Merlin gas safety system to give various means of isolation within an area.

Fusible Link

OFTEN USED WITH				
	Merlin GDP2X **Page 31**	Merlin 1000BH **Page 32**	Merlin GDP2 **Page 33**	Merlin GDPX+ **Page 30**

The fusible link is most commonly used in a boiler room application. These are fitted as a mean of fire protection. If the boiler room temperature reaches over 72 degrees then the fusible wire inside will melt and therefore send an electronic signal to isolate the gas supply. Multiple fusible links can be fitted in one area.

Sounder Alarm Beacon

OFTEN USED WITH			
	Merlin GDP2X **Page 31**	Merlin GDPX+ **Page 30**	Merlin GDP2 **Page 33**

The Sounder Alarm Beacon is a remote alarm beacon most commonly used outside a boiler room. This sounder alarm beacon can give both an audible and visual alarm in the event of an emergency. Various colours are available to suit the application.

Air Pressure Differential Switch

Merlin CT1200S Page 14	Merlin 1000V+ Page 23	OFTEN USED WITH

An air pressure differential switch is a mechanical switch fitted in ductwork which can be used to monitor and check airflow rates. These switches are adjustable and have a range from 20-300PA. They also come with a 1m duct kit to be fitted into the ductwork to detect the airflow.

Gas Solenoid Valve

Merlin 1000BH Page 32	Merlin 1000S Page 27	Merlin 2000S Page 15	OFTEN USED WITH

Our gas solenoid valves are 230V powered, normally closed, auto-reset and will most commonly be powered from our Merlin gas safety systems. In the event of an emergency, the Merlin gas safety system will take power away from the gas solenoid valve causing it to slam shut, and when power is re-instated this will then allow gas to flow through the pipework.

We have a full range of sizes available, both screwed and flanged, and can offer specialist gas valves on request.

Water Solenoid Valve

OFTEN USED WITH	Merlin 1000VW+ Page 22	Merlin 1000SW+ Page 25

Our water solenoid valves are most commonly found in science laboratories where the teachers want full control of the water supply to the benches, but they can be used in a range of applications.

Similar to a gas solenoid valve, our water solenoid valves are normally closed, auto-reset and 230V so they can be controlled by the Merlin gas safety systems.

Once again, we have a full range of sizes available, WRAS approved and can offer specialist types on request.

Pressure Transducer

OFTEN USED WITH	Merlin GDPX+ Page 30	Merlin 1000S Page 27	Merlin 2000S Page 15

A transmitter used to check for leaks in the gas line, by detecting pressure drops from the downstream port of the gas solenoid valve.

Spec Wizard

Ensure your project has the correct equipment

Here at S&S Northern we ensure your project is meeting all the latest gas regulations and recommendations.

As part of our dedication to continual progress and development, the S&S Northern team has developed the pioneering Spec Wizard. Spec Wizard is a dynamic resource that significantly reduces a consultant's workload by searching for and identifying the most appropriate equipment for a project, location or specification.

By simply answering questions from the drop down menu, Spec Wizard will instantly generate the ideal specification a consultant needs to meet various gas regulations on their project.

Spec Wizard will then create and email an equipment list which can then be directly used within a specification document, saving hours of time and money during the research and sourcing stages.

For help with the Spec Wizard or if you would like one of S&S Northern's technically trained sales engineers to explain the process over the telephone, please call us on +44 (0) 1257 470 983

Book Your Free CIBSE Accredited Webinar.

Do your projects include Boiler/PlantRooms? Laboratories? Commercial kitchens? Receive up to date knowledge of Gas Safety Regulations.

The CPD session will cover the following 4 areas:

BB100 & IGEM UP/2 – GAS SAFETY IN BOILER HOUSES / PLANT ROOMS

IGEM UP/11 EDITION 3 (2018) – GAS CONTROL IN EDUCATIONAL ESTABLISHMENTS, SUCH AS FOOD TECHNOLOGY ROOMS AND LABORATORIES

BS6173:2009 & DW172 2018 – GAS INTERLOCKING FOR COMMERCIAL KITCHENS

IGEM UP/19 – CO2 MONITORING FOR COMMERCIAL KITCHENS

SNSNORTHERN.COM/CPD

S&S Northern is a friendly family business proving top quality products and outstanding customer service.

S&S Northern is a friendly family business proving top quality products and outstanding customer service. S&S Northern has built a reputation in the UK that is second to none. Established in 1995, S&S Northern has become synonymous with designing and manufacturing gas pressure proving and gas detection equipment.

S&S Northern has achieved its position as the market leader as a result of its staff's dedication to supply top quality products that are safe, reliable and meet every client's individual requirements. Its aim is to always provide total satisfaction to those who specify, purchase and install S&S Northern products.

S&S Northern continually invests in training for every member of staff to ensure the customer receives the right product to meet their requirements at the right price and delivered on time. S&S Northern is committed to investing in research to improve its efficiency and the quality of its gas interlocking, gas ventilation and gas shut off systems and products. With bases in the North and South of the UK, S&S Northern is perfectly placed to respond to customer demand in any area and to respond immediately to requests for site visits or general enquiries.
